### BACKGROUND

1. This Agreement is designed to formally establish a cooperative training relationship between the Employer and the International Technological University (ITU) for the benefit of students enrolled in the University's various academic degree programs.
2. Where involving a student attending ITU on an F-1 student visa, the parties to this Agreement acknowledge an understanding of the meaning of a proper internship offered through Curricular Practical Training (CPT), as defined by Title 8 of the U.S. Code of Federal Regulations, Section 214(f)(10)(i), which reads as follows:  
*"An F-1 student may be authorized by the Designated School Official (DSO) to participate in a curricular practical training program that is an integral part of an established curriculum. Curricular practical training is defined to be alternative work/study, internship, cooperative education, or any other type of required internship or practicum that is offered by sponsoring employers through cooperative agreements with the school."*
3. The parties to this Agreement share a common interest in providing internship work opportunities that will enhance the educational training received by ITU students and that will either result in job offers post-graduation or be beneficial to students in competing for full-time employment elsewhere, once their degree programs are completed.

The Employer specified below, upon signature by an authorized representative, agrees to cooperate with the International Technological University to provide qualified internship opportunities for students who can meet the Employer's intern hiring specifications.
